Note: if a product belongs to multi-categories or subcategories, please set a password for all related categories or subcategories to protect it.

Session Time

This module uses the Magento system session to record a password. Within the session time, customers don't need to enter the password again.

You can set your Magento system session time on admin panel-> Stores->Configuration->Advanced->Admin->Security->Admin Session Lifetime

Notifications

1. Support Magento 1.5.x-1.9.x
