Installation:

From your base Magento2 directory -> app -> code (you may have to create this directory), create the Sunflowerbiz directory to your app/code directory.

From the base Magento2 directory:

-Upload the contents of 'Unionpay' directory to 'app/code' directory of your Magento installation

-Enable the module running the following commands on the root of your Magento installation:

```
bin/magento module:enable --clear-static-content Sunflowerbiz_Unionpay  
bin/magento setup:upgrade
```

The following commands should work even in windows with the forward slash swapped for back.

```
php bin/magento cache:clean
```

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

Problem with making payment?

Why is installing ActiveX control necessary? ActiveX control wouldn't download, what should I do?

When making payment, what should I do when a "There is a problem with this website's security certificate!" warning appears?

Payment Success

After completing the payment, the customer will return your store by clicking the Return to Merchant button.
