**SUNFLOWERBIZ**

**Email: [info@sunflowerbiz.com](mailto:info@sunflowerbiz.com)**

**Web: [www.sunflowerbiz.com](http://www.sunflowerbiz.com)**

## **Installation:**

**From your base Magento2 directory -> app -> code (you may have to create this directory), create a Sunflowerbiz directory to your app/code directory.**

**From the base Magento2 directory:**

**-Upload the contents of 'Base' and 'ChinaTracking' directories to the 'app/code/Sunflowerbiz' directory of your Magento installation.**

**-Enable the module running the following commands on the root of your Magento installation:**

**bin/magento module:enable --clear-static-content Sunflowerbiz\_ChinaTracking**

**bin/magento setup:upgrade**

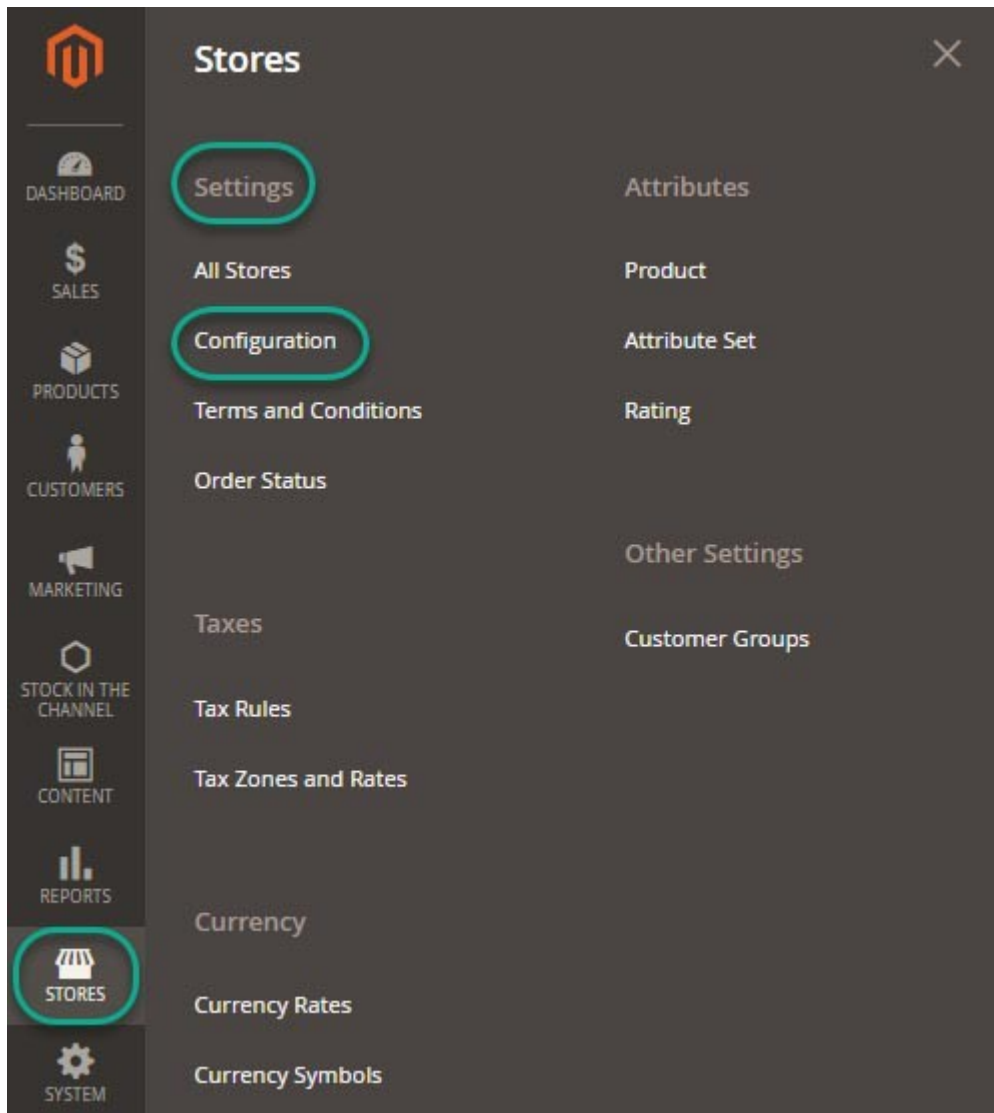

**SUNFLOWERBIZ**

**Email: [info@sunflowerbiz.com](mailto:info@sunflowerbiz.com)**

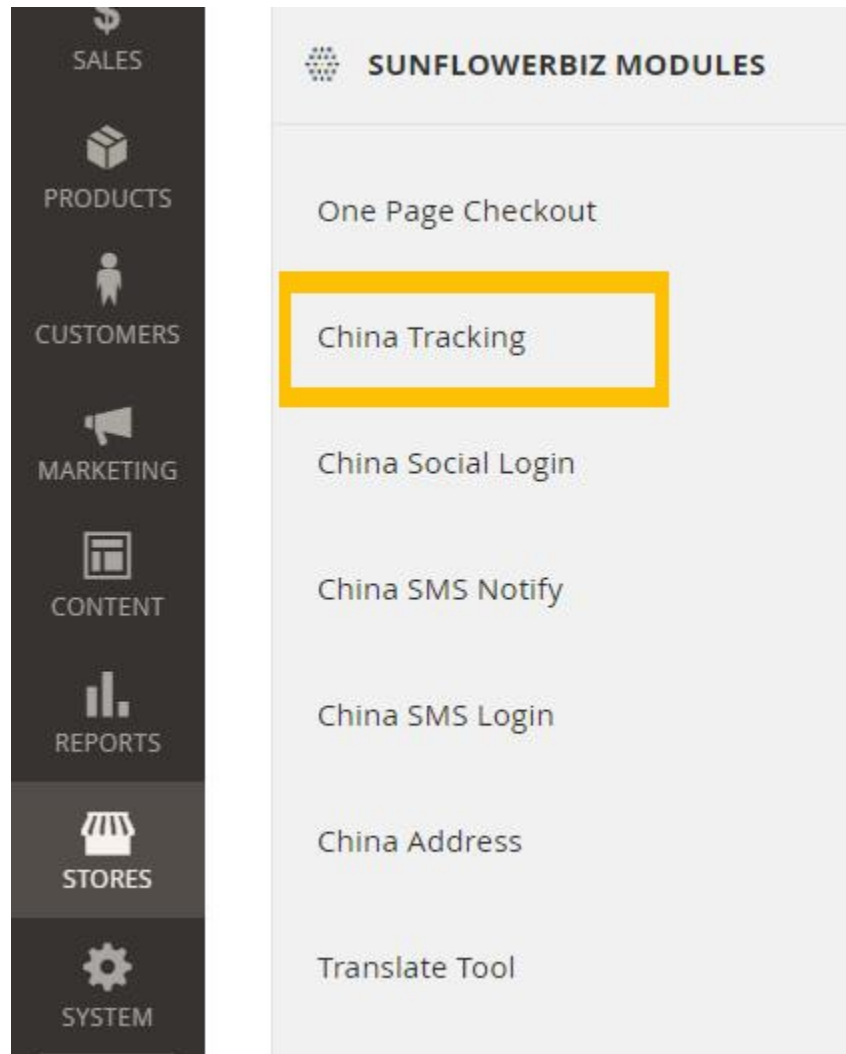

**Web: [www.sunflowerbiz.com](http://www.sunflowerbiz.com)**

## Module Setting:

1. Go to **Admin Panel**, navigate to **STORES** and click on **Configuration**.

2. Expand **SUNFLOWERBIZ MODULES** and click **China Tracking**.

3. Expand the **China Tracking** section to start the configuration.

## China Tracking

[Click here to view more about author](#)

<b>Enabled</b> [website]	Yes
<b>Service</b> [website]	快递100
<b>APPID/CustomerID</b> [website]	xxxx11
<b>APP Key</b> [website]	XXXXXXXXXXXXXXXX

- 1) **Enabled:** Select **Yes** to enable the module.
- 2) **Service:** Choose which service provider you use to integrate the data.
- 3) **APPID/CustomerID/APPKey:** Enter the **APPID/CustomerID/APPKey** that Kuaidi100 or KuaidiNiao provides for you.

## Access to the shipment tracking API.

Our module integrates the shipment tracking API provided by [KuaiDi\\_100](#) and [KuaiDiNiao](#). Please request the shipping tracking API to get **app id** and **app key** to configure on the module setting page.

### 1) [KuaiDi\\_100](#)

A) Apply for the [KuaiDi100 shipping tracking API](#)

B) Click “立即开通” and sign up for an account.

### 欢迎注册快递鸟 免费获取ApiKey

提交即视为同意 [《快递鸟隐私和接口服务协议》](#)

[同意协议并注册](#)

C) Log into your [KuaiDiNiao](#) account and purchase the shipment tracking API package.

The screenshot shows the '用户管理后台' (User Management Backend) interface. The left sidebar contains a menu with '产品服务管理' (Product Service Management) highlighted. The main content area has two tabs: '产品服务管理' and '订购记录'. Under '产品服务管理', there are two cards: '在途监控' (In-transit Monitoring) and '快递查询' (Express Query). Both cards have a blue '立即订购' (Order Now) button at the bottom, which is highlighted with an orange border in the '快递查询' card.

D) Enter the '用户 ID' as APP ID and 'API Key' as APP Key on the module setting page of your Magento admin panel.

The screenshot shows the '用户管理后台' (User Management Backend) interface. The left sidebar contains a menu with '我的会员中心' (My Member Center) highlighted. The main content area has a tab for '用户信息' (User Information). The page displays a user profile with a '注册用户' (Registered User) type and an '开通服务' (Open Service) button. To the right, there is a '亲爱的快递鸟用户, 欢迎回来。' (Dear KuaiDiNiao user, welcome back.) message and a form with fields for '用户类型' (User Type), '公司名称' (Company Name), '手机号' (Mobile Number), and '邮箱' (Email). The '用户ID' (User ID) and 'API key' fields are highlighted with an orange border, and there is a '设置回调地址' (Set Callback Address) link below them.

## Front Page:

The shipment tracking info will display on the order detail page.
