SUNFLOWERBIZ

Email: info@sunflowerbiz.com

Web: www.sunflowerbiz.com

Installation:

From your base Magento2 directory -> app -> code (you may have to create this directory), create Sunflowerbiz directory to your app/code directory.

From the base Magento2 directory:

-Upload the contents of 'Base' and 'ChinaSocialLogin' folders to 'app/code/Sunflowerbiz' directory of your Magento installation.

-Enable the module running the following commands on the root of your Magento installation:

```
bin/magento module:enable --clear-static-content Sunflowerbiz_ChinaSocialLogin  
bin/magento setup:upgrade
```

The following commands should work even in windows with the forward slash swapped for back.

```
php bin/magento cache:clean  
php bin/magento setup:upgrade  
php bin/magento setup:di:compile  
php bin/magento setup:static-content:deploy
```

WeChat Login

1. Access to WeChat Login on [WeChat Open Platform](#)

A) SignUp/Login on [WeChat Open Platform](#)

B) Request [Website Application Development](#)

C) Click "**Create an application**" to request

D) Joining process:

- Create website application
Developers can create website applications by entering the website name, description, icons and official website address, etc.
- Submit for audit
When a website creation application is submitted by a developer, WeChat Team will audit the information to guarantee the website quality.
- Pass audit and launch
After auditing is passed, developers will receive an AppID, by which features such as WeChat Login can be developed
- Configure Authorization Redirect Domain
Please configure your "authorization redirect domain" in wechat login app management page on <https://open.weixin.qq.com/> Don't add https or http.

E) Check the **AppID/Secret**

After WeChat approves your application, click **Web Application** under **Management Center**.

F) Click **View** to get the **AppID** and **AppSecret**.

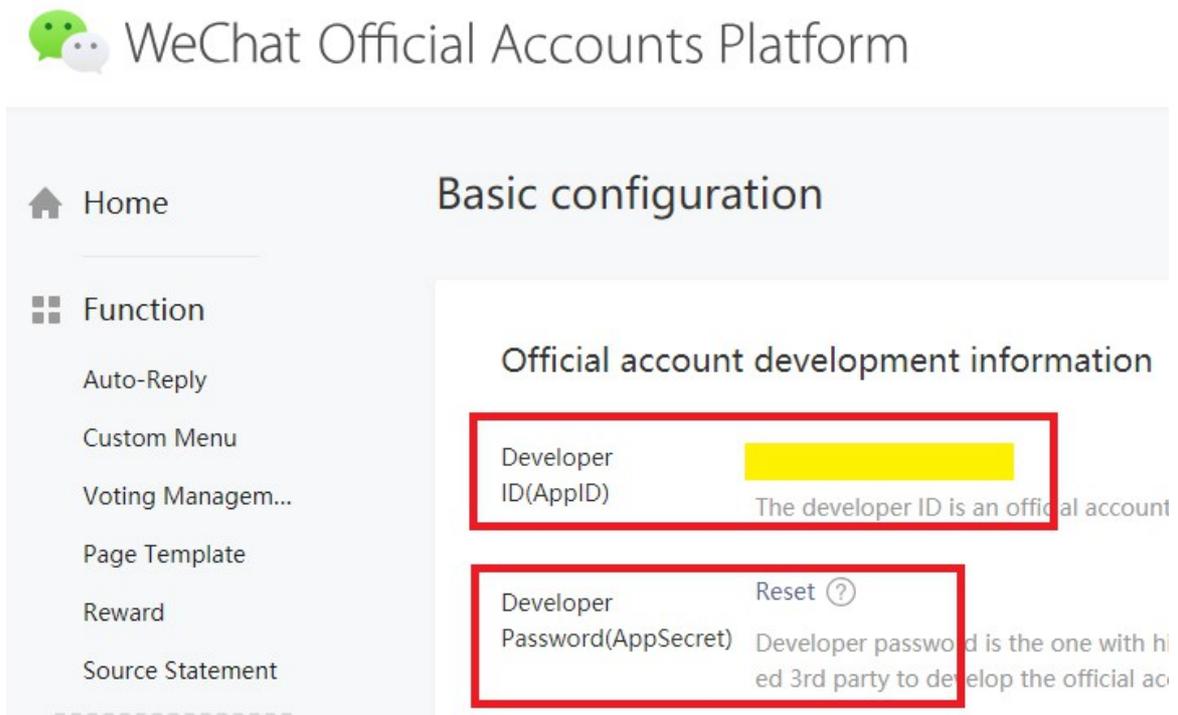

The screenshot shows the WeChat Open Platform Management Center interface. At the top, there is a navigation bar with the WeChat logo and the text '微信·开放平台', along with links for '首页', '资源中心', and '管理中心'. Below the navigation bar, the breadcrumb '管理中心 / 应用详情' is visible. The main content area displays the application details for '葵谷扫码登录'. On the left is the application icon, a circular pattern of blue dots with one orange dot in the center. To the right of the icon, the application name '葵谷扫码登录' is shown. Below the name, the 'AppID:' and 'AppSecret:' fields are highlighted with a yellow background, indicating they have been viewed. A green checkmark and the text '已通过' (Already Passed) are displayed below the AppSecret field. Below the application details, there are three sections: '接口信息' (Interface Information), '基本信息' (Basic Information), and '微信登录' (WeChat Login). The '微信登录' section contains the text '使用微信帐号登录App或者网站' and a link labeled '详情' (Details).

G) Enter **AppID** as **WeChat APP ID**, and **App Secret** as **WeChat APP SECRET**.

2. Access to WeChat Login on [WeChat Official Accounts Platform](#)

A) Make sure your official account is **Server Account** and **has authorized**.

B) Log into [WeChat Official Accounts Platform](#), scroll down to **Development** and click **Basic Configuration**.

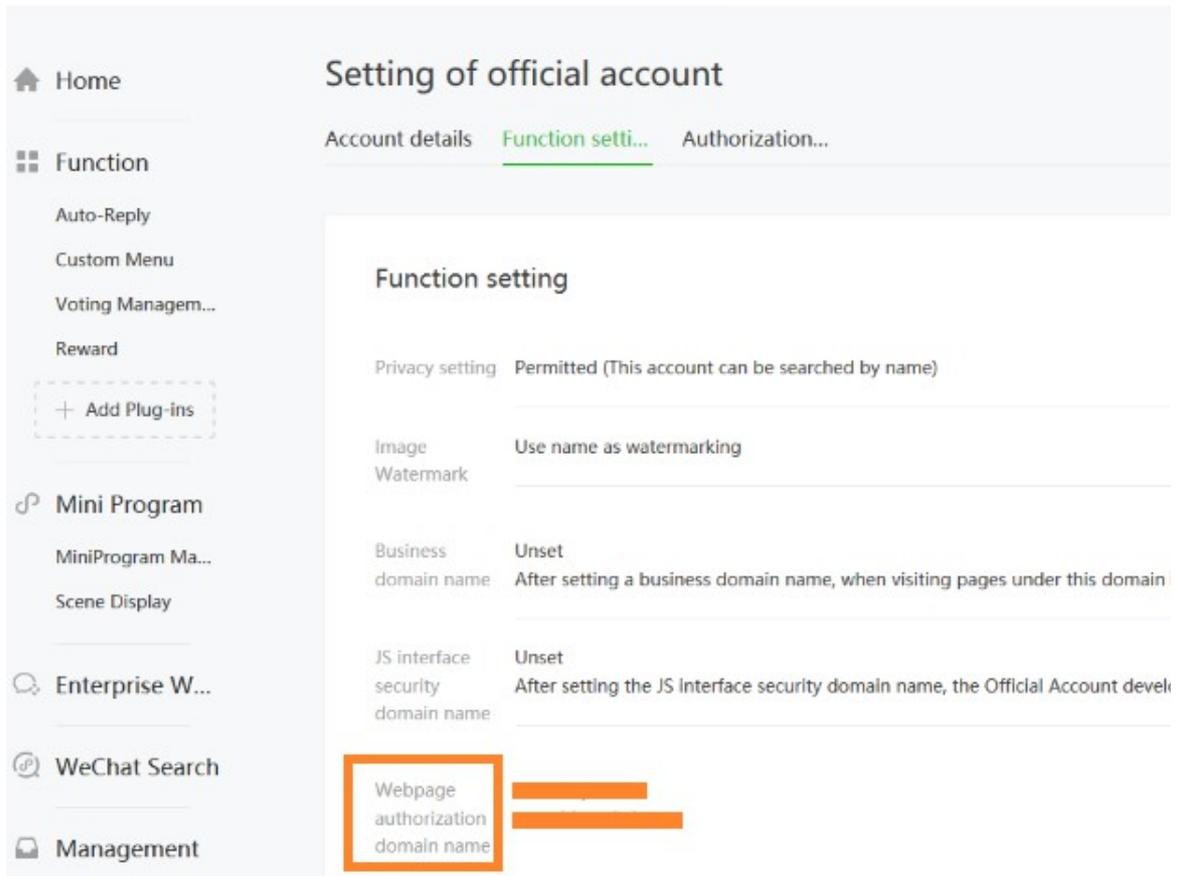

C) Enter **Developer ID** as **Official Account APP ID**, and **Developer Password** as **Official Account APP Secret**.

D) Set **webpage authorization domain name**

DI) Click **Function setting** under **Setting of official account**.

WeChat Official Accounts Platform

The screenshot displays the 'Setting of official account' interface. The left sidebar contains navigation options: Home, Function, Mini Program, Enterprise W..., WeChat Search, and Management. The 'Function' section is expanded, showing options like Auto-Reply, Custom Menu, Voting Managem..., Reward, and Add Plug-ins. The main content area is titled 'Setting of official account' and has three tabs: 'Account details', 'Function setti...' (selected), and 'Authorization...'. Under the 'Function setting' tab, several settings are listed:

- Privacy setting: Permitted (This account can be searched by name)
- Image Watermark: Use name as watermarking
- Business domain name: Unset. After setting a business domain name, when visiting pages under this domain
- JS interface security domain name: Unset. After setting the JS Interface security domain name, the Official Account devel
- Webpage authorization domain name: This field is highlighted with an orange box and has two orange bars next to it, indicating it is the focus of the instruction.

1. Click **Set** button

网页授权域名 ×

用户在网页授权页同意授权给公众号后，微信会将授权数据传给一个回调页面，回调页面需在此域名下，以确保安全可靠。

下载文件 将以下文件上传至填写域名或路径指向的web服务器（或虚拟主机）的目录（若填写域名，将文件放置在域名根目录下，例如wx.qq.com/MP_verify_0v6PiSDf88YHmN2W.txt；若填写路径，将文件放置在路径目录下，例如wx.qq.com/mp/MP_verify_0v6PiSDf88YHmN2W.txt），并确保可以访问。
