Profile: www.freelancer.com/u/SunflowerBiz.html

Installation:

From your base Magento2 directory -> app -> code (you may have to create this directory), create Sunflowerbiz directory to your app/code directory.

From the base Magento2 directory:

-Upload the contents of 'ChinaSocialLogin' directory to 'app/code/Sunflowerbiz' directory of your Magento installation

-Enable the module running the following commands on the root of your Magento installation:

```
bin/magento module:enable --clear-static-content Sunflowerbiz_ChinaSocialLogin  
bin/magento setup:upgrade
```

The following commands should work even in windows with the forward slash swapped for back.

```
php bin/magento cache:clean
```

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

WeChat Login

1. SignUp/Login on WeChat Open Platform: <https://open.weixin.qq.com/>
2. Request "Website Application Development"
https://open.weixin.qq.com/cgi-bin/frame?t=home/web_tmpl&lang=en_US
3. Click "Create an application" to request

Joining process:

◆ Create website application

Developers can create website applications by entering the website name, description, icons and official website address, etc.

◆ Submit for audit

When a website creation application is submitted by a developer, WeChat Team will audit the information to guarantee the website quality.

◆ Pass audit and launch

After auditing is passed, developers will receive an AppID, by which features such as WeChat Login can be developed

4. Configure Authorization Redirect Domain

Please configure your "authorization redirect domain" in wechat login app management page on <https://open.weixin.qq.com/> Don't add https or http.

Note: This module only supports wechat scan qr code login using openid. If you need wechat official account login using unionid, purchase [here](#)

QQ Login (I)

1. Login QQ Open Platform: <https://connect.qq.com/> using QQ account (QQ account num can't be changed. Company public QQ is preferred)
2. Register application developer
